## COMPTROLLER

...OF THE...

### STATE OF FLORIDA

FOR THE PERIOD BEGINNING JANUARY 1,  
1904, AND ENDING DECEMBER 31, 1904.

CAPITAL PUBLISHING CO.  
STATE PRINTERS  
TALLAHASSEE, FLORIDA  
1905

THE FOLLOWING CORRESPONDENCE IS SELF-EXPLANATORY.

TREASURY DEPARTMENT, STATE OF FLORIDA,  
COMPTROLLER'S OFFICE,  
TALLAHASSEE, JUNE 20, 1904.

*Hon. W. S. Jennings,  
Governor of Florida.*

SIR:—

I have the honor to submit my views as to the tax rate that will be required to be levied for the year A. D. 1904.

Chapter 5107, Acts of 1903, provides "That for the purpose of securing an equal and uniform rate of taxation to pay the appropriations for the current expenses of the State for the years 1903 and 1904, and for interest on the bonded debt for said years, there shall be levied upon the real and personal property of the different counties for the year 1904 a tax of three mills upon the dollar." \*

"Provided, That if the Governor shall discover from the aggregate assessment of the property of the State, and from other sources of revenue, the reduction of three mills State tax of either or both of said years will be justified, he is hereby authorized to reduce the same as low as he may deem advisable, and is hereby empowered to instruct the Tax Collector to collect only such reduced tax as he may fix as aforesaid."

The taxes collected under the levy year referred to become a part of the General Revenue Fund of the State from which all appropriations made by law are paid unless otherwise specially provided. These appropriations cover the general expenses of the State Government, including compensation for all State officers and clerks, jurors, assessment and collection of State Taxes, State Printing, Expenses Florida State Troops, payment of interest on State Bonds, Salaries of Justices of Supreme Court, Judges Circuit Court, State Attorneys, Railroad Commissioners, and all other expenses of the State Departments, as well as all of the different State schools and colleges, Hospital for the Insane, the Soldiers' Home,

and numerous other and special appropriations made by law.

The rate of taxation levied for the year 1902, was, under authority of the law, reduced by you from 3 to  $2\frac{1}{2}$  mills on the dollar, the tax levy was further reduced by your direction for the year 1903 from 3 to  $1\frac{1}{2}$  mills. Notwithstanding these great reductions in the tax rate and the additional expenditures necessary by the extraordinary appropriations amounting to about \$140,000.00 for two years, made by law at the session of the Legislature of 1903, in addition to the regular appropriations as provided by law at said session, the taxes so levied have, together with the increased revenue from other sources, proved sufficient to meet all of the regular and extraordinary demands on the State Treasury and to provide for the payment of all the other appropriations made by law at the last session of the Legislature.

By the reduction of the interest on the State bonds under the Acts of 1901, and the payment of a large portion of the principal of the bonded debt of the State, as provided by an Act of 1903, the payments of interest on the State debt have been reduced from \$64,627.00 to \$18,047.01 annually. The current expenses of the State are being held down to the lowest possible point consistent with the law and good service. These and other salutary economies and the increasing revenues accruing to the State from the operation of the license law of 1903 and the tax certificate law of 1901, and other enactments of those years will justify a further reduction of the burden of the tax payers.

The revenues that will be derived during the coming year for general revenue purposes of the State from licenses, interest on State deposits, sale of fertilizer stamps, redemption of tax sale certificates and other sources beside taxation, together with an increase in the property valuation on the assessment rolls of the different counties in the State for the year 1904, will in my opinion, be sufficient to warrant the reduction of the tax levy to meet the current expenses of the State, and to pay the interest on the bonded debt of the State, from three (3) mills to one (1) mill on the dollar for the year 1904, provided the appropriations to be made by the Legislature of 1905 are kept within reasonable bounds and the

strict economy now enforced in all of the State Departments is adhered to.

Yours very respectfully,

A. C. CROOM,  
Comptroller.

EXECUTIVE DEPARTMENT, STATE OF FLORIDA,  
TALLAHASSEE, JUNE 28, 1904.

Hon. A. C. Croom,  
Comptroller of the State of Florida,  
Tallahassee.

SIR:—

I have the honor to acknowledge the receipt of your communication dated June 20, 1904, with reference to the financial condition of the State, which has been carefully noted, together with the detailed statements of receipts and disbursements of revenue raised and appropriated for the current expenses of the State, calling my attention to the provision of Chapter 5107, Acts of 1903, which provided among other things:

"That for the purpose of securing an equal and uniform rate of taxation to pay the appropriations for the current expenses of the State for the years 1903 and 1904, and for interest on the bonded debt for said years there shall be levied upon the real and personal property of the different counties for the year 1904, a tax of three (3) mills upon the dollar."

\* \* \*

"Provided, That if the Governor shall discover from the aggregate assessment of the property of the State, and from other sources of revenue, the reduction of three mills State tax of either or both of said years will be justifiable, he is hereby authorized to reduce the same as low as he may deem advisable, and is hereby empowered to instruct the Tax Collectors to collect only such reduced tax as he may fix as aforesaid."

As stated, the rate of taxation levied for the year 1902 was, under authority of law, reduced by executive order from three (3) mills to two and one-half ( $2\frac{1}{2}$ ) mills on the dollar, and for the year 1903 from three (3) to one and one-half ( $1\frac{1}{2}$ ) mills on the dollar, and it is gratifying to note that notwithstanding this great reduction in the

tax rate and the additional expenditures rendered necessary by the extraordinary appropriations, amounting to about \$440,000.00 for two years, made by law at the session of the Legislature of 1903, in addition to the regular appropriations, the taxes so levied have been, together with the increased revenue from other sources than direct taxation, sufficient to meet all of the regular and extraordinary demands on the State Treasury, leaving a balance to the credit of the general revenue fund, as shown by the State Treasurer's report of this date, of \$215,883.01.

Your analysis of the receipts and expenditures for general revenue purposes has been carefully examined and considered, and it is indeed gratifying to note the splendid financial condition of the State.

It occurs to me, however, that the estimate upon which your opinion is based—that it will be safe to reduce the tax levy for the general revenue fund from three (3) mills on the dollar to one (1) mill on the dollar for the year 1904—is a liberal estimate.

It not only provides for the "current expenses" of the State for the year 1904 and for interest on the bonded debt for said year, but it anticipates and provides for a deficit in the pension fund, which should, in my opinion, be provided for by legislative enactment and not hold the general revenue fund responsible for deficits in other separate funds.

It will be observed from the State Treasurer's monthly reports that there are other funds burdened with a surplus that the Legislature can transfer, if it so desires, and thus maintain the theory of having separate funds, and make ample provisions for each.

It is my opinion, after a careful consideration of your communication and the statistical data and analysis of the receipts and disbursements for the current expenses of the State and for interest on the bonded debt as aforesaid, with the enforcement of strict economy in all of the Departments of State, which is assured, that it is not absolutely necessary that any tax levy should be made for the year 1904. However, in view of the fact that you have embodied in your estimates provision for anticipated deficits in a fund other than for general revenue purposes—which is deemed proper under the circumstances—I have therefore decided, and do hereby, under

authority vested in me under the provisions of Chapter 5107, Acts of 1903, reduce the tax rate from three (3) mills on the dollar, as provided by law, to one-half ( $\frac{1}{2}$ ) of one (1) mill on the dollar, and you are hereby authorized and empowered to direct the Tax Assessors of the various counties of Florida to levy one-half ( $\frac{1}{2}$ ) of one (1) mill tax on the real and personal property of the different counties for the year A. D. 1904, to be appropriated for the current expenses of the State and for the interest on the bonded debt of the State of Florida. I have the honor to remain,

Yours very truly,

(Signed)

W. S. JENNINGS,  
Governor.

**COMPTROLLER'S REPORT.**

TREASURY DEPARTMENT, STATE OF FLORIDA,  
COMPTROLLER'S OFFICE,

TALLAHASSEE, FLA., JANUARY 2nd, 1905.

*Hon. W. S. Jennings,*  
*Governor of Florida.*

SIR:—

I have the honor in pursuance of the requirements of law to present herewith a report of the official acts and proceedings of this office during the fiscal year ending December 31st, 1904.

I had occasion in each of my two preceding reports to congratulate the people of the State of Florida upon the excellent financial condition of the State and to then predict that the future would in my judgment give rise to even better conditions than then existed. I am now able in presenting this, my report for the year 1904, to show that these forecasts have been fully verified.

The closing year of your term of office as Governor has but confirmed the belief that its beneficial results to the people of Florida would give additional cause for congratulation. The collection of the Indian War Claim, the placing of the convict system of the State upon a basis of financial gain to the State as well as of the proper care, custody and humane treatment of the prisoners, the collection of the long-contested claim of back taxes on railroads, the unprecedented reduction in tax levies and great improvements in schools and in State properties and other good results, coupled with the acquisition of patents to "the Everglades" as swamp and overflowed lands, aggregating approximately three million acres, together with the enunciation of the policy of the trustees of the Internal Improvement Fund of Florida, that these lands are held in trust for the people of the State and should be applied primarily to the purposes for which they were granted, viz: *for reclamation, drainage and settlement*, will make the era of your occupancy of the Gubernatorial Chair of Florida one to be pointed to for all time as a period of faithful guardianship of every interest of the people entrusted to your care. The levy for general revenue has again been reduced and is now at the exceedingly low figure of one-half of one mill, and the total of the State levy for all purposes only four mills, the lowest ever

reached in Florida, and probably the lowest of any Southern State. But for the necessity of caring for our worthy but needy pensioners, requiring the doubling of the millage for that purpose during the last two years, the total State millage would have been only three mills for all purposes.

A review of the financial situation seems to indicate that this low rate of taxation can be maintained in the future by a rigid system of economy in the administration of the government and a judicious continuance of attention to our sources of revenue other than direct taxation, which latter in every instance bears hardest on those least able to stand it. The present revenue law could doubtless be amended beneficially in some respects, and amendment is in my judgment much preferable to a recast of the whole law. Its provisions are generally known and the duties to be performed under it are of such a complex nature that a thorough acquaintance with its various parts is essential to the proper exercise of the judgment and discretion involved in the decision of questions arising thereunder.

#### INCREASE IN VALUATION.

In A. D. 1901, the assessed valuation of all taxable property was \$97,551,192.00, and in A. D. 1904, the assessed valuation was \$117,064,840.00, an increase of \$19,513,648.00, or nearly 20 per cent. in three years. This may be attributed in part to the increase in values due to the prosperous condition of the State. The restoration of lands to the assessment roll on account of redemption from tax sales under the existing law and the increased efficiency of the Tax Assessors in carrying out the law and instructions, have also largely contributed to the increase in the aggregate valuation.

#### LICENSE LAWS.

The license law passed by the Legislature of 1903, has resulted in an increase in the revenue from that source, but there are numerous provisions therein that should be made more explicit. These will be pointed out to the appropriate Committees of the Legislature, so that such action may be had as the Legislature may deem best.

#### PENSIONS.

There are about three thousand pensioners on the roll, including soldiers, sailors and widows of those deceased, and it will require about two hundred and eighty-eight thousand dollars per annum to meet the payments as provided by law. The net revenue from the two mill tax levied for pensions will be about two hundred and twenty thousand dollars, which will leave nearly seventy thousand dollars to be provided for annually to pay the pensioners now on the roll. There are a large number of claimants who are now seeking to have their names placed on the pension roll and when proper proof is made according to prescribed forms and regulations, many of those applying will doubtless have their claims approved. In this way the pension roll will be materially increased, but just to what extent it is difficult to state. It seems, however, from the present outlook that hereafter it will require a four mill tax to meet the demands for pensions.

#### SETTLEMENT OF RAILROAD BACK TAXES.

The litigation that has been pending for several years to collect back taxes assessed in 1885 against the Florida Railway and Navigation Company, was finally brought to a termination on the 12th day of December, A. D. 1904, when payment was made in the sum of \$96,181.69, which represented the total amount of taxes assessed. Of this amount, the sum of \$14,427.25 was due and payable under resolution No. 1 of the Legislature, approved March 4, 1881, as follows:

J. W. Malone.....\$7,213.62  
Heirs of E. A. Perry..... 7,213.63

After deducting the attorneys' fees, the amount accruing to the State is \$36,796.35, and to the counties, \$44,958.09, apportioned as follows:

County.	County Revenue.	County School.	County Special.	Total County.
Suwannee .....	\$1,668.52	\$1,042.82	\$ 834.26	\$3,545.60

Wakulla .....	307.22	204.82	153.61	655.65
Total .....	\$17,895.66	\$12,808.42	\$14,254.01	\$44,958.09

## STATE BANKS.

The increase in the number of State Banks and the accumulation of deposits, as shown by the reports to this office, attest the confidence of the people in the banks organized under State Laws. The growth and financial stability of the State Banks, as evidenced by their reports during the past year, should be the source of satisfaction to all Floridians. Application is now pending for authority to commence a State Bank with a capital stock of one million dollars. This speaks for itself and shows that the advance in the financial stability of State Banks is real. The prosperity of the people can in a large measure, be judged by the amount of the deposits in the State Banks alone, amounting to \$8,271,596.72. Four banks were organized in 1903, and nine banks have been organized in 1904. A gain of thirteen State Banks in two years and not a single failure has occurred during that period.

## INSURANCE.

The insurance on State property is being kept up as the law directs, under the supervision of the Board of State Institutions.

## RAILROAD AND TELEGRAPH ASSESSMENTS.

The assessments of railroads and telegraph lines have been regularly made and sent to the county and municipal assessors and the State and County taxes assessed thereon have all been paid for the year 1903.

## TAX SALE CERTIFICATES.

The law under which tax sale certificates are redeemed, purchased and cancelled is working satisfactorily and the receipts from that source continue to be gratifying in amount. The work of entering the redemptions, etc., of record and making distribution is progressing as rapidly as possible.

## CONCLUSION.

The several tables and statements annexed hereto exhibit in detail the work of this department and show the financial condition of the State.

Very respectfully,

A. C. CROOM,  
Comptroller.

## RAILROADS AND TELEGRAPH LINES.

The annexed tables show in detail the assessment of Railroads and Telegraph Lines, made by "the Comptroller, with the assistance and advice of the Attorney General and Treasurer of the State," under Section 47 of Chapter 4322 of the Laws of Florida, as amended by the Act of 1897.

These are followed by statements showing the taxes assessed thereon.
